

369B1860G0030

Nexus OnCore MPU55 Controller Module

Product identification

General Electric 369B1860G0030 is the Nexus OnCore MPU55 Controller Module for Nexus OnCore. It identifies the official catalogue configuration associated with the MPU55 controller.

Parameter	Official value
Manufacturer	General Electric
Model	369B1860G0030
Product Family	Nexus OnCore
Product Type	Nexus OnCore MPU55 Controller Module

Technical information

Parameter	Official value
Associated Model	MPU55
Controller Role	Universal Nexus control platform
Execution	Runs application code
Supply	24 VDC
Maximum Power	7.2 W
Architecture	Integrated stand-alone computer
Ambient Range	-20 to +50 degrees C on the certified module nameplate
Installation	Panel-mounted in a suitable enclosure
Catalogue Number	369B1860G0030

Applications

- Specifies an MPU55 controller for a Nexus OnCore control system.
- Runs configured application code on the associated controller hardware.
- Provides an exact catalogue reference for controller-spare identification.

Controller Execution

- Official documentation specifies associated model as MPU55 for this configuration.
- Official documentation specifies controller role as Universal Nexus control platform for this configuration.
- Official documentation specifies execution as Runs application code for this configuration.

Electrical Supply

- Official documentation specifies supply as 24 VDC for this configuration.
- Official documentation specifies maximum power as 7.2 W for this configuration.
- Official documentation specifies architecture as Integrated stand-alone computer for this configuration.

Ordering Identity

- Official documentation specifies ambient range as -20 to +50 degrees C on the certified module nameplate for this configuration.
- Official documentation specifies installation as Panel-mounted in a suitable enclosure for this configuration.
- Official documentation specifies catalogue number as 369B1860G0030 for this configuration.

Selection and installation checks

- Verify the 369b catalogue number and mpu55 nameplate.
- Confirm firmware and application compatibility.
- Match the installed panel and power architecture.
