

1C31194G03

Ovation Valve Positioner G03 EMOD Assembly

Product identification

Emerson 1C31194G03 is the Ovation Valve Positioner G03 EMOD Assembly for Ovation I/O. It provides valve-positioner electronics for Ovation 3.5 and later systems.

Parameter	Official value
Manufacturer	Emerson
Model	1C31194G03
Product Family	Ovation I/O
Product Type	Ovation Valve Positioner G03 EMOD Assembly

Technical information

Parameter	Official value
Module Function	Valve positioner
Variant	G03
Ovation Compatibility	Version 3.5 and later
Assembly Type	Electronics module assembly
System Family	Ovation
Parts Program	Emerson factory-certified spare part
Ordering Code	1C31194G03
Generation Limit	Do not substitute for the G01 legacy variant
Replacement Goal	Maintain installed-system integrity

Applications

- Replaces the valve-positioner EMOD in Ovation 3.5 and later systems.
- Supports actuator-position control in the matching later-generation architecture.
- Provides a factory-certified spare for Ovation valve-control maintenance.

Valve Control

- Official documentation specifies module function as Valve positioner for this configuration.
- Official documentation specifies variant as G03 for this configuration.
- Official documentation specifies ovation compatibility as Version 3.5 and later for this configuration.

Ovation Compatibility

- Official documentation specifies assembly type as Electronics module assembly for this configuration.
- Official documentation specifies system family as Ovation for this configuration.
- Official documentation specifies parts program as Emerson factory-certified spare part for this configuration.

Service Planning

- Official documentation specifies ordering code as 1C31194G03 for this configuration.
- Official documentation specifies generation limit as Do not substitute for the G01 legacy variant for this configuration.
- Official documentation specifies replacement goal as Maintain installed-system integrity for this configuration.

Selection and installation checks

- Confirm the ovation release is 3.5 or later.
- Retain the g03 suffix during procurement.
- Validate the installed module and project documentation.
