

IC200CHS006 Communications Carrier

The Communications Carrier (IC200CHS006) provides mounting and backplane communications and field wiring for a fieldbus communications module.

Din Rail Mounting

The carrier snaps easily onto a 7.5 mm x 35 mm DIN rail. The DIN rail must be electrically grounded to provide EMC protection. The rail must have a conductive (unpainted) corrosion-resistant finish. For applications requiring maximum resistance to mechanical vibration and shock, the carrier must also be panel-mounted. Refer to chapter 2 for installation instructions.

Features

- Compatible with all VersaMax fieldbus communications modules.
- Fast DIN-rail mounting.
- Can be located in any "slot".
- Module latch hole for securely fastening the module to the carrier.
